Dr S P Raj (Co-chair, Editor JADEE, Distinguished Professor, Syracuse University, New York)

Dr Sukanya Das (Assistant Professor, TERI University, Delhi)

Dr Chubamenla Jamir (Assistant Professor, TERI University, Delhi)

ABOUT THE CONFERENCE ORGANIZERS

TERI University

TERI University was conceived to cater to the need of disseminating the vast reservoir of knowledge created by TERI, a not-for-profit, independent research institute recognized globally for its contribution to scientific and policy research in the realms of energy, environment, and sustainable development. It offers Master's and Doctoral programmes in the disciplines of Law, Public Policy, Business Sustainability, Climate Science, Environmental Studies, Geoinformatics,

Biotechnology, Water Science, Renewable Energy and Urban Development. It has been recognized globally for its contribution to scientific and policy research.

ORGANIZED BY

IN COLLABORATION WITH

PARTNERS

International Conference on AGRIBUSINESS IN EMERGING ECONOMIES

JANUARY 3–4, 2018

CONFERENCE PERSPECTIVE

Agribusiness and the allied supply chains in developing and emerging economies are facing twin challenges: first, feeding their own populations and second, the integration of their supply chains with global food markets in light of the burgeoning open international market regime. There is no denying that opportunities for agribusiness in developing and emerging countries are plenty in the global market, yet small and marginal farmers face huge challenges in harnessing these opportunities. Agribusiness in these countries plays a critical role in the livelihoods and well-being of a large segment of the population, the growth of new and established organizations, and the economic vitality of their respective economies.

During the Rio 20+ summit, United Nations Security Council attracted the world's attention towards one billion hungry people and initiated the Zero Hunger Challenge by urging all stakeholders of agricultural supply chains—governments, farmers, businesses, scientists, civil society, and consumers to work together and develop inclusive and sustainable food systems to eliminate food waste and ensure food security (United Nations, 2012).

This conference aims to bring together scholars, practitioners, policymakers, and other stakeholders from around the world to present and share their original research and expertise on agribusiness in the developing and emerging economies. The conference will cover a broad spectrum of themes, methodologies, and research approaches including empirical, conceptual, review, and case studies.

CALL FOR PAPERS

Scholars, practitioners, and policymakers from around the world are invited to submit original research papers based on the themes given in theme section. The following are illustrative of the scope of the conference and are not meant to be exhaustive.

THEMES

- Climate change and agribusiness
- Managing food and agribusiness firms including cooperatives
- Public policy issues in agribusiness
- Marketing, distribution, and retailing in agribusiness
- Value chains and strategic alliances
- Agricultural finance, insurance, and risk management
- Information and communication technologies in agribusiness
- Supply chains in agribusiness
- Food and nutritional security and its implications in agribusiness
- Agribusiness education
- Gender issues in agribusiness
- Sustainable consumption and production (including sustainable standards)
- Innovations in agribusiness
- Rural development and agribusiness
- Agribusiness and ecosystem services
- Sustainability and corporate social responsibility
- Sustainable agriculture
- Food-water-energy nexus

Abstract Submission

Authors who wish to present their research at the conference must submit the following: title of the paper, names, affiliations and emails of authors, extended abstract of 500 words, and 4–5 keywords in Times New Roman font size 12, single spaced. Email id and contact number of corresponding author should be given as a footnote. Suggestions for writing the abstract are available at: www.teriuniversity.ac.in/icab.

All accepted abstracts will be published online. Acceptance of abstracts implies the work will be presented in the conference and at least one author will register and attend the conference.

Paper Submission

Authors whose abstracts have been accepted may submit a full-length paper if they wish to have their papers further considered for possible publication by JADEE. Papers may be revised and submitted after presenting and receiving feedback at the conference. Guidelines for submitting the full paper are available at: www.teriuniversity.ac.in/icab.

PEER MENTORING

Experienced Scholars will be peer mentors and give one-on-one guidance to early career faculty and doctoral students who submit a full-length paper. In addition, a session will be held during the conference focusing on the process of conducting impactful research and enhancing the skill set of emerging researchers.

Notification of Peer Mentoring: November 30, 2017

IMPORTANT DATES

Last Date of Abstract Submission	October 30, 2017
Notification of acceptance of Abstracts	November 15, 2017
Full paper submission (OPTIONAL)	November 30, 2017

REGISTRATION FEE DETAILS

Deadline	Early Bird till October 31, 2017	Registration after October 31, 2017
Delegates – India, South Asia and other emerging economies	3,000 (INR)	4,000 (INR)
Students – India, South Asia and other emerging economies	1,000 (INR)	1,500 (INR)
Delegates – International	US \$ 150	US \$ 200
Students – International	US \$ 50	US \$ 75

ACCOMMODATION

Accommodation for participants will be arranged by TERI University at different guest houses, hotels, etc., on payment basis.
