TEXT

Students and faculty members are involved in various activities in the neighbourhoods. One example is awareness campaigns on various environmental aspects like air pollution and waste management in association with Resident Welfare Association (RWA) ([link](#)) and school level. TERI SAS has also been engaged in creating green covers in the nearby areas as a part of its social responsibility (through an MoU with ONGC from 2012 till about 2018). Urban villages, slum and street markets are visited by the students as a part of their course work, field work and major research projects.

Through empirically grounded thesis and research projects, students work on live cases such as impact of air pollution and extreme climate events on traffic policemen, street vendors, sweepers and auto-rickshaw drivers ([link](#) to the database of all such works by PG students). Some of the work has been published in international journals.

Assignment based field visit are held to conduct climate vulnerability assessment of communities in the neighbourhood as part of the curriculum. Studies have been conducted by students on vulnerability assessment of the slum communities in South Delhi and challenges related to control of water table depletion in Vasant Kunj and Masoodpur. This work received the Earthian-2013 award from Wipro ([link](#)). Recently TERI Students and Covid task force set up by its [Eco Club](#) has received laurels for their contributions in assisting those affected by pandemic (reported in metric 3.6.2).

In addition, the School-University Network (SUN) ([link1](#), [link2](#), [link3](#), [link4](#), [link5](#), [link6](#)), BLISS ([link](#)) and other similar initiatives involve school level students based in Delhi NCR to visit TERI SAS and initiated them to the ways and means to adopt sustainable lifestyles.

All events are reported here: <https://terisas.ac.in/whats-happening.php>; Endeavour by faculty members to outreach are reported here: <https://terisas.ac.in/outreach.php>.

An illustrative list of activities is included in [Annexure 3.6.1.B](#).
