Course description

The objective of this course is to introduce the students to the Management Information System (MIS) and its application in organizations. The course would expose the students to the managerial issues relating to information systems and help them identify and evaluate various options.

Course objectives

1. To provide students an understanding about the usage of Information Systems in management.
2. To make them familiar with activities that are undertaken for acquiring an Information System in an organization.
3. To make them aware of various Information System solutions like ERP, CRM, Data warehouses and the issues in successful implementation of these technology solutions in any organization
