<p>Course description: This course aims at sharpening the skills of students, and, enable them to handle the challenges related to litigation, teaching, research, policymaking and also that of judicial officers. The skills include:</p> <ol style="list-style-type: none"> a. Expertise in identifying the gaps between law and society, and, also between facts and law. b. The ability to find answers to those variances through appropriate research and logical thinking, c. Capacity to deliberate among peers on various individual, social and public interests that should be balanced while finalising a legal answer, and d. The ability of effective written and verbal representation of these issues before the appropriate forums. <p>It also aims at keeping the students abreast with the contemporary legal developments, particularly in their areas of specialisation viz. environment and natural resources laws and infrastructure and business laws. The course facilitates the students to translate legal theory into practice under the close supervision of the course instructor.</p>			
<p>Course objectives:</p> <ol style="list-style-type: none"> 1. To connect the theory and their practical implication through clinical methods. 2. To refine the lawyering skills and research acumen. 3. To improve the skill of public speaking 4. To improve the skill of legal writing
