<b>Contact details:</b> moumita.mandal@terisas.ac.in			
<b>Course type</b>	Elective		
<b>Course offered in</b>	Semester 2		
<b>Course Description</b>			
Climate change is one of the main challenges facing humanity today. It has severe implications for the social, economic, and political life of people around the world. An attempt is made in this course to look at the legal responses both at the national and international level to this grave crisis. In addition, the course also looks at the impact of this phenomenon on other branches of law like the law of the sea and human rights.			
<b>Course objectives</b>			
<ol style="list-style-type: none"> <li>1. To provide an understanding of the international and national laws relating to climate change.</li> <li>2. To understand the compliance mechanism envisaged under the international legal regime.</li> <li>3. To analyse the impact of climate change on other branches of law</li> </ol>
