| <b>Course Description</b>  |   |                                       |
| <p>This course aims to provide an overview of the commercial and general legal context in which financing of the infrastructure sector, or project financing is undertaken. The course also covers the legislative and policy framework within which the project finance market operates in India. The course will explore and examine, methods and sources of project financing particularly in India, risks attached with financing of large scale infrastructure projects and project finance documentation in India.</p> |   |                                       |
| <b>Course objectives</b>   |   |                                       |
| <ol style="list-style-type: none"> <li>1. To provide an overview of the general legal context in which the infrastructure project finance take place in India.</li> <li>2. To introduce the methods of project finance in India.</li> <li>3. To gives students the opportunity to review and apply the law and practice of project financing to factual scenarios taken from actual project finance deals.</li> </ol>  |   |                                       |
