<b>Course type</b>	Elective		
<b>Course offered in</b>	Semester 2		
<b>Course Description</b>			
<p>Telecommunication is a key infrastructure for economic and industrial development. The reforms carried out in the sector, including the entry of private operators, have resulted in unprecedented growth in the sector. This course is an attempt to look at the telecommunication laws and policies in India. As the distinction between telecommunication and broadcasting technologies are getting blurred with the convergence of technologies, this course also takes a look at the broadcasting laws.</p>			
<b>Course objectives</b>			
<ol style="list-style-type: none"> <li>1. To understand the legal framework for telecommunications in India.</li> <li>2. To critically analyse the regulatory structure and various regulatory agencies in the telecommunication sector.</li> <li>3. To understand the legal issues involved in the broadcasting sector.</li> </ol>
