Course code: NRE 151	No. of credits: 3	L-T-P: 21-08-32	Learning hours: 45
Pre-requisite course code and title (if any): NRE 121 Ecology, NRE 123 Biodiversity assessment and Conservation			
Department: Natural and Applied Sciences			
Course coordinator:		Course instructor:	
Contact details:			
Course type: Elective		Course offered in: Semester 3	
Course Description This course teaches the essential elements, concepts and skills related to wildlife conservation and management. This includes implementing habitat management practices; identifying wildlife conflicts; and participation in personal and community leadership development activities and planning. The perspectives of science and management will be elucidated in the context of historical, current and future strategies designed to conserve the diversity of life. The course work will be guided by work on scientific papers and field experience.
