

Course title: Introduction to Sustainable Development			
Course code: NRE 165	No. of credits: 1	L-T-P: 15-0-0	Learning hours: 15
Pre-requisite course code and title (if any):			
Department: Natural and Applied Science			
Course coordinator: Dr Amit Kaur		Course instructor: Dr Amit Kaur	
Contact details: amit.kaur@terisas.ac.in			
Course type: Core		Course offered in: Semester 1	
<p>Course Description</p> <p>The course seeks to build an inter-disciplinary perspective on understanding sustainable development concerns and challenges. This course familiarizes students with current debates and perspectives in analyzing constraints and opportunities for sustainable development. It also aims to provide students with a general introduction to the basic core competencies and practical skills required of a “generalist” development practitioner.</p> <p>Course topics will be grounded in a practical, multi-disciplinary approach that will focus on the inter-relationship of each of the following core fields of study (Agriculture and Nutrition, Economics, Environment and Climate Science, Management, Policy, Anthropology and Social Studies, Public Health and Technology and Engineering), thereby exposing students to the complex relationships between social, economic and environmental processes.</p>			
<p>Course objectives</p> <ol style="list-style-type: none"> 1. The course seeks to build an inter-disciplinary perspective on understanding sustainable development concerns and challenges. 2. It also aims to provide students with a general introduction to the basic core competencies and practical skills 3. This course familiarizes students with current debates and perspectives in analyzing constraints and opportunities for sustainable development.
