<b>Contact details:</b>			<b>Course offered in:</b> Semester 2	
<b>Course type:</b> Core				
<b>Course description:</b> In this course the students are exposed to the decisions taken by an individual or a business firm, which have financial implications. While decision processes are dealt with the objective of maximization of wealth of shareholders, a focus is kept on sustainability issues.				
<b>Course objectives:</b> The course is designed to provide an understanding of the essential elements of finance and its functions and the financial environment in which the business firm operates. The paper will examine the objective of shareholder wealth maximization which encompasses much of modern corporate finance and its implication for decision making in the present context.
